PROFILE

I am Kavindu Nilanga Liyanaarachchi, a 20-year-old developer based in Raigama (Close To Horana) with a lifelong passion for technology. Having worked extensively with computer systems for over a decade, I possess a deep, intuitive understanding of hardware and software.

A motivated and dedicated IT professional with a National Diploma in Information and Communication Technology (NVQ Level 5). I possess strong skills in Web Application Development, UI/UX Design, and Responsive Design, with hands-on experience in building modern, user-friendly applications. I am a hardworking individual committed to continuous learning and delivering high-quality, reliable service both independently and as part of a team.

I am a also passionate Backend Developer capable of engineering robust Backend architectures using PHP, JavaScript, and SQL. I thrive on the challenge of building end-to-end web applications, ensuring seamless integration between the front-end user experience and back-end logic. When immersed in a project, I am fully committed to delivering excellence and pushing the boundaries of the application's functionality.
